

Thanks...

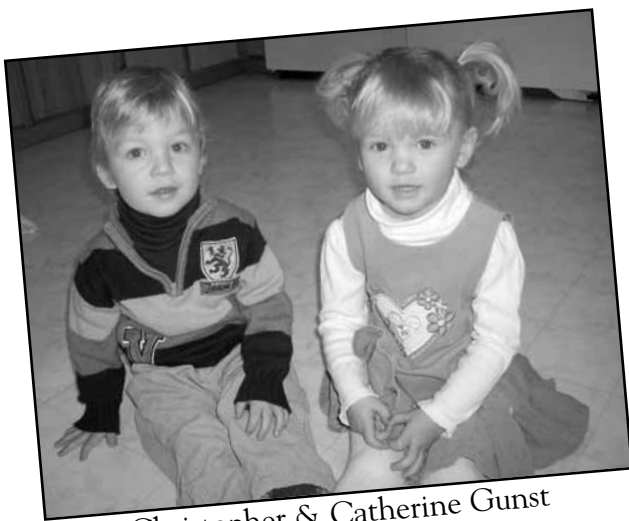

We want to thank all of you for your interest in our Wilstar herd over the years. A special thanks to our friends who entrusted us with partnership animals and allowed us the opportunity to develop these special individuals.

We tip our hats to Kevin Jorgensen. He has been there since day one, and whether it's finding a special addition, milking cows, or marketing our genetics worldwide, we can always count on Ke-Jo.

We have been fortunate to have had several key employees over the years, all of whom have helped us achieve our dreams and goals. A big thanks to all of them.

And lastly, we want to wish the very, very best to all of you who selected a Wilstar animal, and hope they outperform your expectations.

Willis & Carla, Lynn & Sara
